"Praise the folks at Great British Trips! I wanted to take my Mum on a trip around Scotland and Wales. She was born and raised there and hadn't been back there since moving to Canada over 50 years ago. I wanted to take her back and explore these countries with her and get a glimpse of our heritage. Needless to say, the trip had to be special, as we wanted to see a lot. We needed a senior friendly trip without compromise.

Great British Trips had the daunting task of fulfilling all of these requirements and they passed with flying colours. Our travel within the country included travel by bus, train, and private coach. All the travel was meticulously timed. We were fortunate to have a fantastic private tour guide in Alister (highly recommend). The accommodations and excursions were exactly what we asked for. We were able to see everything we wanted with just enough time to relax. Great British trips worked with us to orchestrate our trip of a lifetime. Thank you, Great British Trips, from my Mum and me. "

David Mossop, Canada

"As a senior woman travelling alone I felt as if Great British Trips was with me, guiding me along the way.

The B&B's were lovely, maps of the cities with train schedules and a rail pass, as well as ideas for excursions were very helpful for a last minute and never to be forgotten trip to Wales. I went on a planned two week trip to Ireland after my Wales trip and raved about Great British Trips to all my fellow travellers. "
